

Vacuum Heating Mat DATA SHEET

dimensions
(active heating zone)

S	320 mm x 230 mm
M	475 mm x 480 mm
LE	970 mm x 375 mm
L	925 mm x 875 mm
XLE	1745 mm x 310 mm
XL	1745 mm x 570 mm

material

highly flexible reinforced silicone rubber
gray silicone rubber with improved tack to Tacky Tape

heating power density

6000 W/m²

voltage

230 V AC

heating temperature

max. 160 °C

ambient temperature

-10 °C ... + 55 °C

ambient humidity

max. 95 %

features

thermosensors included
one for all plug-system
vacuum port included
moisture and chemical resistant
high flexibility
textile loops for attaching lashing straps with suction pads
