Vacuum Heating Mat DATA SHEET

dimensions (active heating zone)

M	475 mm x 480 mm
LE	950 mm x 475 mm
L	925 mm x 875 mm
XLE	1655 mm x 305 mm
XL	1655 mm x 575 mm

material | highly flexible reinforced silicone rubber
gray silicone rubber with improved tack to Tacky Tape

heating power density | 6000 W/m²

voltage | 230 V AC

heating temperature | max. 160 °C

ambient temperature | -10 °C ... + 55 °C

ambient humidity | max. 95 %

features | thermosensors included
one for all plug-system
vacuum port included
moisture and chemical resistant
high flexibility
textile loops for attaching lashing straps with suction pads
insulation protection with velcro for easy handling
